in partnership with

***Planting:**

Full sun.

Well-drained soil.

These seeds can be started 5-6 weeks before the last frost date (during early spring) indoors

Plant ½ " deep, 2-3 seeds per cell in 72- or 128-cell flats. Thin to 1-2 plants per cell.

Transplant outside and plant 6 seeds together ½ " deep in rows 12-18" apart. Thin to 4-6" apart for larger leaves

Grows to 10 - 12" height

***Harvest:**

After 55 days they are ready to first be harvested.

Cut or snap mature leaves individually. New leaves will grow for multiple harvests
