PERROT MEMORIAL LIBRARY

Seed Library

in partnership with

***Planting:**

Full sun.

Well-drained soil.

Begin indoors 4 weeks before last frost or direct sow 2 seeds with 6' between-row spacing, 24-36" apart, 1/2-1" deep.

Thin to 1 plant per spacing interval after seedlings are established.

Grows to 12-18" height

***Harvest:**

100 days till fully grown

Harvestable about 50-55 days after fruit set, and before any hard frosts

Cut squash from vines and handle carefully. Sun cure by exposing for 5-7 days
