in partnership with

***Planting:**

Full sun.

Well-drained soil.

Start indoors 8 weeks before last frost plant ¼" deep; lightly cover; keep moderately moist

After the last frost date move plants outdoors. Planting 12–24" apart in rows 4–6' apart.

Use 5–6' stakes every 2–3 plants

Grows to 24-36" height

***Harvest:**

60 days till fully grown

Should be staked, trellised, or caged, and pruned for best results; fruit ripens over an extended period.
