### **\*Planting:**

Full sun.

Well-drained soil.

After last frost date, sow seeds about 2" apart,  
1" deep, in rows 20–36" apart.

Grows to 18" height

After the beans are up, thin the plants to 3 to 4  
inches apart.

For a continuous supply, make successive  
planting every 2-3 weeks through midsummer.

### **\*Harvest:**

Can typically harvest 2 weeks after bloom.

Pick every 3-5 days to encourage new pod
